

## Webometrics Ranking – UON 6<sup>th</sup> in Africa

The University Nairobi has performed excellent in the just concluded webometrics rank. The university has been placed at position 6<sup>th</sup> in Africa and 697 worldwide.

This is a great improvement as compared to previous years and it is also the best position that the university has ever obtained since the ranking was introduced.

The webometrics rank is based on four key parameters; openness, excellence, impact and presence. In Africa, the University has been placed at position 2 in openness 2 in impact 4 in presence and 25 in excellence.

The two other local universities that were ranked are Kenyatta University that is placed at position 30 and Moi University at position 54 in Africa.

The management has congratulated the website team and the entire university community for all their effort and urged them to work even harder so that the University can achieve top position.
