UNIVERSITY OF NAIROBI & HUAWEI

presents

(Huawei Certified Network Associate) BOOTCAMP

Gain knowledge and skills required for basic configuration and maintenance of small to medium-sized networks and the knowledge of virtualization in computing, networking and storage.

We will be offering the following training tracks con-currently:

1. Huawei Certified ICT Associate (HCIA) Datacom
2. Huawei Certified ICT Associate (HCIA) Cloud Computing
3. Huawei Certified ICT Associate (HCIA) Storage

Track 1

HCIA Datacom (R&S)

Course

HCIA-Datacom is an entry-level for Routing & Switching certification.

Aims at certifying network engineers with the basic data communication knowledge and hands on skills.

The knowledge to learn includes the following contents: Routing and switching principles, basic WLAN principles, basic knowledge of network security, basic knowledge of network management and O&M, and basic knowledge of SDN and programming automation.

Track 2

HCIA Cloud Computing

Course

Virtualization is an entry-level technology for cloud computing and a very important technology in cloud computing.

This course introduces the knowledge of computing, networking and storage related to virtualization.

It also introduces the features of virtualization so that everyone can quickly understand the field of cloud computing.

Track 3

HCIA Storage
